USJN Beach Bash Basketball Tournament
Friday - Sunday, June 15th-17th

New to the Wildwoods for 2018, U.S. Junior Nationals brings the Wildwood Beach Bash Basketball Tournament to the Wildwoods Convention Center Friday, June 15 through Sunday, June 17.

The tournament will be played on eight full-sized basketball courts set up inside the 75,000-square-foot Oceanfront Arena. This inaugural event will bring 80 teams from seven states to compete over the weekend. There will also be a local bracket for this event showcasing four boys' teams from the area. Ages of participants include under 12 through under 17.

U.S. Junior Nationals (USJN) will mark its 31st year of operation as the longest privately owned girls' basketball exposure event in the country. However, this is the first year that USJN and organization owner Mike Flynn will bring its unique brand to the beach, while also launching its first USJN Boy's event all under one roof.

This event will be a perfect tune-up for July as teams prepare for many events, including the USJN Championships held at the Gaylord National Convention Center just outside of Washington D.C., which will welcome over 500 teams next month.

For a complete list of participating teams or for additional information, visit www.USJN.com or call 215-278-6153.

For additional information about the Wildwoods, visit www.WildwoodsNJ.com or call 800-992-9732.

3. **IS YOUR CAR #ROADTRIP READY?**
DON'T FORGET PRE-TRIP #CARCARE BEFORE YOU BEGIN YOUR JOURNEY
Before you hit the road this summer, make sure your vehicle is road trip ready so you can have any problems fixed before you go. A pre-trip checkup will help avoid the inconvenience, potential safety hazards and unplanned expense of breaking down miles away from home.

- Check filters and fluids, including engine oil, antifreeze/coolant, windshield washer and power steering, brake and transmission fluids.
- Check the hoses and belts and replace if they become cracked, brittle, frayed or loose. These are critical to the proper functioning of the electrical system, A/C, power steering and the cooling system.
- Check the brake system and make sure the battery connection is clean, tight and corrosion-free.
- Check the tires, including tire pressure and tread. Underinflated tires reduce fuel economy and uneven wear indicates a need for wheel alignment. Tires should also be checked for bulges and bald spots.
- Check the engine to make sure it is delivering the best balance of power and fuel economy and produces the lowest level of emissions.
- Check that the gas cap is not damaged, loose or missing.

"If you're planning a summer road trip, it's important to remember that it's not as simple as just putting gas in the car and driving off," said Rich White, executive director, Car Care Council. "Performing a thorough inspection of your vehicle before you leave will give you peace of mind and help make your road adventure safer and more fun."

THE BENEFITS OF YOGURT FOR PETS

Submitted By
 Patsy Nelson

Recently a customer was having issues with her pet's gastrointestinal tract. Her vet had her using a prescription diet. I suggested that she start giving her dog plain yogurt mixed in with the natural packets or cans of pureed pumpkin that The Wagging Tail sells specifically to aid in a dog or cat's digestive health.

It is amazing to think that people have been eating yogurt for thousands of years. Around 6000BC, people of central Asia began storing the milk from their animals in containers made from the stomach of such animals. The milk naturally curdled and fermented, aided by the natural enzymes in the stomachs.

Ghenghis Kahn, founder of the Mongol Empire, required all of his soldiers to eat yogurt as he believed it instilled bravery in his men.

In the early 20th century, a Bulgarian medical student named Stamen Grigorov discovered bacillus bulgaricus, a lactic acid still found in today's yogurt cultures.

The first yogurt factory was established in France in 1932 - Danone (Danon) Yogurt.

Adding yogurt to your pet's diet provides him with a valuable source of protein and calcium, along with magnesium, potassium, vitamin D, K2 enzymes, essential fatty acids and whey. It also contains probiotics to help support the gastrointestinal system and boost immunity. If your pet has been prescribed antibiotics, just like us humans, the probiotics in yogurt help to restore the beneficial flora diminished or destroyed by the antibiotics thanks to the strains of good bacteria found in this superfood.

As a word of caution, only feed your pets natural, pure, plain yogurt without any added flavors or sugar and certainly not with any sugar substitute such as xylitol, which is toxic to pets.
