CHEF CHIP'S WILD GAME AND SEAFOOD RECIPE

CHRISTMAS GOOSE BREAST

INGREDIENTS:

- 1 Nice Goose Breast
- 1/2 cup Orange Juice
- 3/4 cup Pineapple Juice
- 1/3 cup Soy Sauce
- 2 Tbsp Oyster Sauce
- 1/2 cup Brown Sugar
- 1 Tbsp Fresh Cracked Black Pepper

PREPARATION:

Pour all ingredients into a small pot, omitting the breast. Bring mixture to a boil for 2 or 3 minutes. Remove from heat and chill down in the refrigerator. When the mixture is cool, submerge the goose breast into it for 24 hours air tight and refrigerate. Remove goose breast from liquid and dry with a paper towel. You can now cook this a couple different ways. You can grill it or pan sear it to your liking. I would cook this medium rare and allow it to rest for 5 minutes before slicing and serving. Enjoy and Merry Christmas!

- 9) Bah-humbug! Since 1947 the NBA has scheduled games on Christmas Day with what year being the sole exception due to a lockout?

DRIVING IN WINTER WEATHER, PT. 2

Changes You May Notice

Tires - As the outside temperature drops, so does tire inflation pressure. Make sure each tire is filled to the vehicle manufacturer's recommended inflation pressure, which is in your owner's manual and on a label located on the driver's side door frame. Do not inflate your tires to the pressure listed on the tire itself. That number is the maximum pressure the tire can hold, not the recommended pressure for the your vehicle. The tread should be at least 2/32 of an inch or greater on all tires; and your spare tire.

Car Seats

In colder weather, parents typically dress their children in winter coats. But it's important to know that heavy coats can interfere with the proper harness fit on a child in a car seat. When your child will be secured in a car seat, pick thin, warm layers, and place blankets or coats around your child after the harness is snug and secure for extra warmth.

Batteries

When the temperature drops, so does battery power. In cold weather, gasoline and diesel engines take more battery power to start, and electric and hybrid-electric vehicles' driving range can be reduced.

Safety Technologies

Know whether your vehicle has an antilock brake system and learn how to use it properly. Antilock brake systems prevent your wheels from locking up during braking. If you have antilock brakes, apply firm, continuous pressure to the brake pedal. If you don't have antilock brakes, you may need to pump your brakes if you feel your wheels starting to lock up.

Floor Mats

Due to slushy winter conditions, you might consider switching out your usual floor mats for thicker material or rubbery ones. Improperly installed floor mats in your vehicle could interfere with the operation of the accelerator or brake pedal, increasing the risk of a crash. Always use mats that are the correct size and fit for your vehicle.

WE WOULD NOT THRIVE ON AN UNHEALTHY DIET AND NEITHER WILL OUR PETS

Submitted By
Patsy Nelson
from The Wagging Tail

Do you tire of me harping about bad pet food diets? I AM about healthy food choices especially when some contain dangerous preservatives or artificial colors. A few weeks ago, a couple came in who had picked up a big box of soft food packets for their dog. They just assumed that Cosco would not sell anything detrimental to their pet. I repeat, if the food contains WHEAT, CORN, SOY, OR BY-PRODUCTS, your pet is getting ripped off and increasing the chances of allergy problems. Saving money by buying poor quality food could mean big bucks spent at the Vet's. In a recent article I said that during my research I came upon an article that proclaimed that by-products were not necessarily bad. However, the full truth is that if listed as the first and only protein source in the list of ingredients, your pet is being automatically deprived of important protein as by-products may include parts of the animal from which there are no proteins.

The semi-moist food they chose was similar to Purina's Moist and Meaty with Cheese. Purina claims that it is a 100% nutritional diet, yet they suggest that it could be used as a snack or a topper which if you were so inclined after reading the ingredients, would be more appropriate. Bulleted claims by Purina are a bit more B.S.: (*Offers 100 percent complete and balanced nutrition *This Purina Moist and Meaty recipe is made with real beef *Made with real beef and filet mignon infused with a natural smoke flavor *Delivers tons of meat protein.) Better food companies don't have to repeat how much meat their product contains or say there is TONS OF PROTEIN, like Purina does here, when in fact there is almost nil protein. And-Fillet Mignon-who do they think they are fooling? Do you see tons of protein or filet mignon in the following: Beef by-product, soy flour, soy grits, high fructose corn syrup, water, wheat flour, corn syrup, beef, followed later by cheese powder, as their source of cheese flavor. The list ends with Yellow 6, Red 40 and Yellow 5. Ugh. (I was just checking this product on Tractor Supply and the one they listed has taken out yellow dyes. Progress???)

"A high-quality, lean source of protein supplies essential amino acids that can help your dog build and maintain lean muscle mass, form new skin cells, and grow hair." Quality proteins include beef and lamb, chicken and turkey, salmon and whitefish. We also carry novelty proteins like kangaroo, catfish, goat and rabbit for dogs who have allergies to other proteins. "Simple and complex carbohydrates are not only an energy source, but they also provide fiber for gut health." Sources (in our foods) could be rice, barley, peas and potatoes. Inulin found in an ingredient list is a form of prebiotic.
